NOTES:

1. Any major in Business Information Management, Computer Science, Computer Game Science, Data Science, Informatics, Information and Computer Science, or Software Engineering may take any other minor in the Bren School of Information and Computer Sciences, provided that they take a minimum of five courses toward the minor that do not count toward any other major or minor.
2. Courses used to complete the minor in Digital Information Systems may not also count toward the requirements for the Information and Computer Science minor or the Informatics minor.
3. Students majoring in Business Information Management may not double major in Business Administration nor minor in Management, Informatics, or Information and Computer Science.
4. Software Engineering elective courses may not be counted as part of the Management minor or the Biomedical Computing minor.
5. Bren School of ICS majors may not minor in Digital Information Systems.
6. A student must earn a grade of C or better in all courses used to satisfy the requirements of this minor.
7. Students may not receive both a minor in Statistics and a specialization in Statistics within the Mathematics major.
8. Informatics majors pursuing minors outside of the Bren School of ICS may not count more than four courses toward both the major and minor.
9. Informatics majors in the Organizations and Information Technology specialization may pursue the Management minor, however no course may overlap between the major and minor.
