

INF 102 Concepts of Programming Languages II Homework Homework 6

The following assignments need to be done.

- Exercise 23.2, and 24.1
- Program should be runnable from the command line when in the directory (eg, Users/peter/exercises-in-programming-style-peter/week6/):

```
$ ./build_23.py && ./run_23.py
```

```
$ ./build_24.py && ./run_24.py
```

- Make sure the program can be run on the VM, which can be found [here](#).
- Successfully run over Pride and Prejudice available at the root of the directory.
- Assignment 23.2: use Python

How to submit:

- Commit your code to your repository on GitHub Classroom.
- Add the following tag to your final commit “**homework-6**”, see **description below**.
- The TA will then visit and grade. Note that time stamps will be checked.
- Questions can be asked through Piazza (piazza.com/uci/spring2018/inf102)

How to add a tag to a commit:

- Checkout the commit you want to tag and run the following line in:

```
$ git tag -a homework-6  
$ git push origin homework-6
```
- Or go to your repository on GitHub, click on **releases**, click on “Create a new release”, and fill out the following information (see image), and click **Publish release**.
