

Project Report Guidelines

Written report due Dec 6, 4:00pm

Kalev Kask

ICS 271

Fall 2016

Programming Project

- One report per team
- Grading is based on
 - Quality of work
 - Quality of report
- Length : 5-10 pages, not including supporting materials
 - Do not print supporting materials
- Major items to cover
 - Define problem you are solving (brief)
 - Describe your approach
 - Define algorithm(s), define heuristic
 - Describe/analyze properties
 - Describe/analyze experimental results
 - Make observations

Competiton

- We will email a set of benchmark problems, a few per problem type.
- Run benchmarks of your problem, include results in your written report, as Appendix.
- SLS -> Probability of solving a problem if there is a solution, within some timelimit.

Submission

- Report 12/6 4pm
- Zip source/exe/slides and upload course dropbox on myeee by 12/6 4pm
- Include a ReadMe.txt with make/run instructions.
