

## **Application for Laboratory Space in Calit2**

Name and contact information:

Research project name and focus:

Names and affiliation of those you expect to be working on this project in the building:

What are your planned activities for the space?

What is the relevance of your research to Calit2?

How will being in the Calit2 building benefit both your project and Calit2? Please be specific.

Are there certain attributes of this building/lab that are not available in other locations that make it desirable for you to be located here? If so, what are they?

What are your specific needs (gross space needs, access to certain equipment or services, etc.) related to this request? Do you need bench space, desk space, access to lockable storage, etc.? Please be as specific as possible.

What equipment will you need shared access to? What equipment do you plan to bring to the space? If the equipment requires unusual electrical, plumbing, or HVAC, please specify (attach specs if available).

Would you be using more than one lab space (e.g., networking and visualization, clean room and nanotechnology)?

Are you aware of other groups being considered for occupancy in one of the labs that, should your groups have an opportunity to interact, you expect may result in some synergistic outcome? Please describe.

For what period of time would you like to use the assigned space?

What funding support do you have for the project for which you are requesting space?

Are there off-campus collaborators who would be using the lab frequently? Please specify.

Please provide any other details that you feel would be relevant in helping us make a decision on this space request.
