

## Stat120B: Introduction to Probability and Statistics

### Administrivia

Lecturer: Gang Liang

#### General

Lecturer      Gang Liang (liang@uci.edu)  
Office         346G CS  
Office Hour   Thu 2-3pm; Fri: 10-11am (or by appointment)  
Web            <http://www.ics.uci.edu/~liang/s120b-win06>  
Mailing list   37620-w06@classes.uci.edu

TA             Adam Roy (ajroy@uci.edu)  
Office Hour   Wed: 12-1pm; Thu: 4-5pm

#### Textbook

The textbook of the class is *Mathematical Statistics and Data Analysis* by John Rice (1995). You are strongly recommended to have a copy during the quarter.

Course reservation: two copies of the book have been reserved at the SCI library for the course. The loan period is 2 hours each time.

#### Class Participation

You are urged to go to each lecture and finish all homework independently by yourself. Be well paced. This way, I wish you can learn something and get good score from the class, and still have time to have fun at somewhere else.

There is a class mailing list: **37620-w06@classes.uci.edu**. It is useful for people who have difficulties to go to office asking questions through the mailing list. Everyone is also encouraged to answer questions in the mailing list.

#### Exams and Grading Policy

There are 6 homework, one mid-term and one final exam for the course. Homework will be assigned on Wednesdays, and will be collected during the Friday lecture of the week after.

This course will **NOT** be graded on a curve. The final score will be calculated based on the homework, midterm and final exam with respect to the following distribution:

Homework	Midterm	Final	Total
30%	30%	40%	100%
