“GENDER AND TECHNOLOGY”

MARIA KLAWE
President — Harvey Mudd College

A renowned computer scientist and scholar, Maria Klawe is the first woman to lead Harvey Mudd College since its founding in 1955. Prior to joining HMC in 2006, she served as dean of engineering and professor of computer science at Princeton University. During her time at Princeton, Klawe led the School of Engineering and Applied Science through a strategic planning exercise that created an exciting and widely embraced vision for the school. At Harvey Mudd College, she led a similarly ambitious strategic planning initiative, “HMC 2020: Envisioning the Future.”

Klawe joined Princeton from the University of British Columbia where she served as dean of science from 1998 to 2002, vice president of student and academic services from 1995 to 1998, and head of the Department of Computer Science from 1988 to 1995. Prior to UBC, Klawe spent eight years with IBM Research in California and two years at the University of Toronto. She received her Ph.D. and B.Sc. in mathematics from the University of Alberta.
