

Statistics 110/201 Cover Sheet for Points Reconsideration

Name: _____ Student ID#: _____

Your Homework #: _____

If you want me to reconsider the grading on homework and/or the midterm, please do the following:

1. Print out and fill in this cover sheet and attach it to the relevant papers. You must have your homework and/or exam paper attached.
2. For each question you want me to reconsider, *explain why you think you deserve the points*. You can do this by attaching a separate sheet, putting a post-it note on the paper by the problem, or writing directly on the homework or exam paper. *Make sure it is clear which problem you want considered and why you think you deserve the points*. Note that frivolous arguments will be irritating and will not help your grade. So, please make sure your arguments are valid.
3. If your submitted papers show evidence that you have changed or added any answers you will be referred to the Associate Dean for violation of the campus code of Academic Honesty.
4. Attach this cover sheet and the relevant papers and turn them in **by Wed, Dec 13th at 5pm**.
5. You can bring them to the final exam, to my office (2212 DBH) or put them in the homework box (across the hall from 2202 DBH).
6. After I compute your letter grade, I will look at the total points you are questioning. If those points would not change your grade, I will stop there. If they will change your grade, I will consider your arguments.

Number of points in dispute and relevant problems:
